The 6th National Corvette Caravan is slated for August 28-31, 2019. Often referred to as the world's largest moving automotive event, the National Corvette Caravan is a celebration of America's Sports Car, culminating in Bowling Green, Kentucky for the anniversary celebration of the National Corvette Museum. Hosted only once every five years, the next event is slated for Labor Day Weekend 2019 and will mark the Museum's 25th Anniversary. Leading the planning of the National Caravan will be Jeffrey Duda of Hainesport, NJ, a Lifetime Member of the Museum and previous co-captain of the New Jersey 2014 and 2009 Caravans.

Regional caravans will form and join other caravans as they travel across the United States to meet in Bowling Green, Kentucky for four days (August 28-31)

of festivities at the National Corvette Museum. An event such as this requires years of planning and coordinating.

Larry Dyer, Corvette Legends member and NCM Ambassador, has been on every Caravan but one. Bill Tichy led our Legends group on the 2009 Caravan. They have offered to be the go-to guys for our club and will keep you informed of the touring plans for our club members.

Legends wanting to participate in the 2019 Caravan should get it on their calendars now and make hotel reservations soon. **If you think you might want to go to Bowling Green, contact Larry 972-922-5175 or Bill 214-770-6679**, so they can include you in the plans as they develop.

The Museum is located at I-65, exit 28 in South Central Kentucky and is open daily, 8am to 5pm Central Time. Stay up to date on the Anniversary activities at the Museum by subscribing to NCM emails online.

# NCRS Concours Judging *by Bob Demmell*

The National Corvette Restorers Society (NCRS) has begun a new program of Concours Judging. The NCRS, famous for its meticulous flight judging process has expanded its judging offerings to include an entirely new category of Corvettes. This new category is called Concours judging and is offered for both Stock appearing and Modified Corvettes. It is open to Corvettes from C1 to C4.

## **What is involved in Concours judging and how does it work?**

Concours judging is similar to flight judging in that there are 5 teams of judges who evaluate the car in Operations, Interior, Exterior, Chassis and Mechanical. Unlike Flight judging, however, the teams are not concerned with originality. They are concerned with the function of the systems—in the case of Operations—and the appearance and completeness in all the other categories.

## **What constitutes a Stock or Modified Corvette for Concours judging purposes?**

A Stock Corvette is one with the doors, hood and trunk (ISE) closed, and excluding wheels & tires but including paint color or scheme, the car basically appears like a production Corvette. From outward appearance the car body appears to be stock or as it came from the factory. It can have show quality chrome and paint, a different motor than was originally in the car and different suspension. The key in this class is whether the car looks like it might be stock.

Modified Corvettes includes all other Corvettes. These can have flared fenders, custom paint such as flames pin stripes or other custom touches. This modified class opens the field for a wide variety of Corvettes that were not previously considered candidates for Flight judging.

Concours judging is an exciting new concept within the NCRS and is an exciting new way to open the field for a new generation of Corvette fanatics.
